

Certificate of Conformance

This is to certify that the following item of equipment, intended for life support purposes, **meets the requirements** of the standard indicated below.

Item - Podium Seat (swing chair)
Brand - Petzl
Model - S70
Standard - AS/NZS 4488.1:1997 Industrial rope access systems, Part 1: Specifications

Note: The requirements for a "swing chair" are given below. As can be seen the swing chair does not form part of the safety system and has no performance requirements, only design requirements.

Extract:

AS/NZS 4488.1:1997 Industrial rope access systems, Part 1: Specifications

4 DEFINITIONS

4.15 Swing chair—a suspended seat, not forming part of the safety system, provided for the comfort of an industrial rope access worker.

6 EQUIPMENT DESCRIPTION AND PERFORMANCE REQUIREMENTS

6.9 Swing chair - Where a swing chair is used it shall be so designed that failure of the rigid part of the chair will not affect the integrity of the operator's support system and will not allow parts of the chair or items attached to the chair to become detached.
